Total of coun lies and votes of class 1861... 58—89982

It thus appears that 48 out of the 51 counties of the class of 1857, and 10 counties of the class of 1853, transferred to that of 1861, making in all 58 counties, containing a voting population in 1857 of 82,882, were entitled to the senatorial elections of 1861. This is a little over half the counties, but just about half the voting population of the State.

It will be observed that there are 10 counties, which being transferred from the class of 1853 to that of 1861, thereby gat double representation in the Senate for the next two years. And that sic counties of the class of 1857, to-wit: Monroe, Shelly, Lincoln, Grant, Clirke, and Nicholas, situated in six different districts, by being transferred from class of 57 fol to that of 30 fol, are thereby disfranchised or deprived of a senatorial election for two years. These disfranchised counties, together with the city of Louisville and the other counties of the State not mentioned in this table, constitute the senatorial districts of the class which votes in 1863, and are numbered in the last apportionment 1, 2, 3, 4, 5, 6, 12, 13, 16, 48, 21, 23, 26, 28, 29, 33, 36, 37, and 38. Of the 19 districts entitled to vote in 1861, Hare made up in full with counties of the class of 57 fill, and eight are fractional of the same class; and a majority of the voters in each of said districts is of the class of voters of 1857.

The counties which made up the 19 districts of the class of voters of 1857.

The counties which made up the 19 districts of the class of voters of said class of 1857. By this plan no whole district gats two Senators, and only ten counties have decidened and only six counties, and these in different districts, are deprived af senatorial elections for two years. To assign the elections of 1861 to those districts having the never numbers of the class which voted in 1857, without regard to the altered corpilations of counties made by the apportionment of 1860, would be to give the elections to the state and elections to the service of the same of the cla which voted in 1857, without regard to the alter-ed combinations of counties made by the appor-tionment of 1860, would be to give the elections to at least alme districts not entitled to them—to distranchise whole districts, and at least one fourth of the counties of the State for two years, and for the same length of time confer two Sena-tures on other districts and double representation on another fourth of the counties. Such a course could not be right.

could not be right.

It is believed that the table is based and calculated upon the true theory of senatorial representation under the Constitution of Kentucky. HIGHLY IMPORTANT FROM NEW MEX CO.-Gov. Greiner writes from Santa Fe to the Columbus Journal, under date of Angust 11, that Captains Gibbs and Potter, who were with Major Lynde when the traitorous old dotard surrendered Ma Fort Fillmore and its garrison of seven hundred

Says:

Cal. Roberts, of the Rifles, the commandant of Fort Stanton, 151 miles from Messilla, had evacuated the post for the purpose of concentrating his force at Fort Craig. Capt. Moore, from Fort Buchanan on the wav to Fort Craig with three hundred men and tixty wagone, he not been heard from, hat is regarded as trusty. A etrong body of Texans had left Messilla, after the sarrender of Fort fillmore, to cupture him. Major Seward, son of the Secretary of Stale, is with Capt. Moore. The rebels will find the latter quite a different man to deal with from Major Lynde. The rebels have possess in of all that part of New Mexico known as Arizme, and intend to coalesce with several Mexican States, Texas, and, if they can, with Arkansas, Missouri, and California, in forming the Sierra Nevada Republic.

public.

The rebels in that quarter have very little sympathy with the Southern Confederacy schems, and the new Renublic is the pet project of the K. G. C. s. New York capitalists are also said to favor i's. favor i'.

The writ of habeas corpus has been suspended in the military department of New Mexico, in view of the lampudence of the secessionists. For the first time in three years, the people of the Territory are enjoying a full crop.

THE CONSTRUCTION OF FORT HATTERAS -The construction of Fort Hatteras, the post captured by Gen. Butler on Thursday, is thus described by Thompson in a letter to Colonel Winelow, dated

June 17:

For Hatteras is beginning to assume the appearance of a respectable furtification. The sand is kept continually in motion on this bald sand beach, by the strong winds which prevail here, and the work would be leveled down as fast as it could be put in shape, were it not that I was forlunate in finding, about three quarters of a mile up the Island, some marshes, trom which I obtained a good sed to rivet the work with and hold the sand in its place. I have been very much annoved with the uaval gun carriages sent from Norfolk, which are no doubt well adapted to war steamers when they have port holes to fire through, but which are not at all adapted to fortific ations, as they carry the guns so low as to render the impossible to raise a parapter of sufficient height to protect the men who work the guns. If I were to construct embrasures for them, the field of fire would be entirely too limited, as it is necessary not only to command the bar, but the channel of approach. I would therefore respectfully urge that Marshal Parks be directed to send no more of them.

LATER THOM MEATON.—By the arrival of the Cuban steamer at New Orleans we are placed in monescaped of Vera Cruz files of papers to August 11. They contain no news of striking interest.

The Sigh XIV states that the harvoy of the constitutional term of said office.

He was corducted to the Central Police
Office, where he was examined. A considerable
sum of money was found in his possession, as well
as orders for the purchase of leather and other

articles. He had also a letter of introduction, as MACON, GA., August 9, 1861. Friend C. Q. Armstrong, Louisville:

Intelligencer says:

We regret to observe that a large portion of the alphalid arms placed in the hands of the three months troops, and restored to the arsenal on the expiration of their term of service, lore traces of very careless usage, requiring in too many cases a thorough inspection and repair to render them it for use. We hope they will hereafter fall into the hands of men who will show a soldierly appreciation of the weapons with which they are entrusted in the service of the Government, and to this end we cannot doubt that the regimental officers will institute a more rigidant inspection of arms, for the purpose of preserving them from the abuses of ignerance or carelessness.

Wa are requested to announce that the Hon. Robert Mallory will address the citizens of Shelby ville on Monday next. Let there be a no-bia turn-out to hear our gifted and loyal Reprecontative in the Congress of the United States

We have the kindest feelings personally toward Capt, Gorsneh, and if he is not guilty what has been charged against him, if, in taking the State arms of the Armstrong Rifles from Portland, his whole intention was to use them in an encampment at Muldraugh's Hill, we sincerely hope he will be able to give satisfactory proof of the fact. Certainly however all the circumstances of

depths of midnight at three blasts of a horn in the hands of a Captain in the army of the Southern Confederacy, the breaking open of the state-rooms of the Masonic Gem and the theft of bedding, pistols, and shot-guns, and the seizure of the yawl of the John Raine for the transportation of the arms down the river -all indicate that the expedition was a lawless if not a treasonable one.

Of course we cannot allege that Capt. G. whose personal integrity we always thought tionable, was cognizant of all that was done by his men at l'ortland.

The Contradand Business. — The editor of the Baptist Recorder has made a trip over the Louisville and Nashvilla Railroad recently. At Elizabethtown, he ears he kept his eyes open, and new no less than forty heavy trunks (cared for by passengers who had come on board at Louisville) thrown into the baggaga car marked for the South. The blockade is all bosh. I thought, if it can be evaded thus. Trunks carried to Elizabethtown in hacks, pass without a word, though evidently filled with arms. I also heard, from a gentleman whom I knew, a resident of Louisville, that he had three thousand dollars worth of contraband to ship that day on the fraight train, all wayoued from Louisville. Perhaps but few persons in Kentneky fully appreciate tha blessings which their State onjoys. True here and there in Kentucky outrages occur, but the great mass of the people at joy computative tracquility. The Kentuckian who would trevel through Missouri, as I hava done, could form senie idea of the horrors this State has avoided by pursuing the prudent course of neutrality. There is not a neighborhood in Missouri hut aged by persuing the prudent course of neutrality. There is not a neighborhood in Missouri hut aged parents are found mourning with intensest grief their sons mengled and thin in this wretched Jackson war. Some time ago I visited tha bed-side of a lady prostrate with grief. Her son, a youth of sixteen, had gone, against pirental warning, and joined Jacksone army. He was slain. His grave is suring the unknown on the field of carnage. Her swimming eves and trembling hands showed deepest sorrow. Here was a family plunged into asdress and gloom by the mad, unhallowed ambition of a man whose moral and intellectual qualities are not of such an order as ought to innuce any to rally round his standard. But this is but one ripsciman of thousands in Missouri where parents, immersed in grief, are weeping over youth and promise swept away.

Many young people in Missouri were seduced their, armed with guis and knives, try to make the impreess in that they themselves were enlisting to fight against the United States army. Their example was fed and dy the young, but as (For the Louisville Journal.) supposed old and Influential men were going, who only assembled to entice others. The of the weaknesses of bumen nature is man's asseeptibility of being whirled about by excitement. When simple old men were loudly denouncing the movement of United States troop through Missonii as an invation, hundreds, doubt less honestly, though it was an invation. The seemed to have forgotten the fact that our as stional army always existed in the State; indeed many seemed perfectly demented through excitement. I have long noticed the tendencies of excitement; when they die ewey the "soller see and thought" begins to prevail, and I hope, for the good of Missouri, the soler second though will see away the minds of men that they me perceably return to their loyalty, to their outripes and stars, and obedinace to their vener bis National Constitution. In Governor Gami

pesceably return to their loyalty, to their old cirries and stars, and obedince to their venerable National Constitution. In Governor Gamble Missouri has an executiva of which any State might be truly proud. Patriotism alone has in duced Gov. 1: to eccept the clica. He sees his State on the verge of ruin; bloudshed, rapine, wrateliedness, or sorrow threatens on avery side, As a Christian and a gentleman, he comes forth to arrest the dread torrent that mey overwhelm our beloved State, and it is the duty of every lover of order to second his affords.

Young men of Missouri, suffer not yourselves to be misled by designing men. There certainly can be no beppinez in tighting against the dag that protected you and your fathers before you, la there not something unpleasant in the thought of fighting against the Luited States? Neither you not any one else can tell of one singls instance wherein the United States? Neither you not any one else can tell of one singls instance wherein the United States? Neither it? Reinember the illustrious dead whosa names are accepted. Why then ought you to rebel egainst it? Reinember the illustrious dead whosa names are accepted with your Government. Forget not that you are the countrymen of Washington, Irankin, Jefferson, Jackson, Webster, Clav, and hosts of others, whom we all delight to hone, and be not instrumented in overturning the Government which they founded for us to error.

Bowling Giren, Ky, Sept. t, 186t.
Gentlemen: You are ewars, deubtless, that the most volent peace shreters who are sending their discordant howle throughout our land are the hone file war party, who have been endeavoring by every vile method known to the Catiline school of pilkies to plunge every portion of our late peaceful and happy country into the midst of the esething candiden of cill strife, but you may not be aware that the hypercritical cry is kept into a great extent by our danus-faced elergy, who, under their closk of sanctity (which by the way as becoming too transparent to hide any longer their evil intentions), iosinuate themselves into the favor and coindence of unexpecting loyal and law-abiding citizens. These men, professing to be the ambassators of Jesus Christ, are travelling from State to Stete railing against the kinon and breathing slaughter against all who will not take up arms for its ennihilation, representing the S. C. A. as the very litopia ested lished by cod himself, well knowing that the measures they advocate most certainly mean war and nothing but war, and yet constantly bawling "peac", peace."

Verify there can be no peace in our polluted and until the red lightnings of Jehovah's wrath shall have purified the foul atmosphere of the church. Then, and not till then, methinks, will the sun of peace rize in all its effulgent glory and brightness upon a redeemed notion, whose unitiers had, most emphatically, "Stelen the livery of To the Editors of the Louisville Journal.

At the latest advices from Leesburg there were supposed to be about ', 600 relied troops at the entenchments at the junction of the Little Falls road with the Alexandria and Leesburg turnple, and that nearly all the negrees in the northern part of Fairfax county are employed on the works about Leesburg. There are no large bodies of rebels, but their pickets line the river shore and guard the fords and ferries.

An eye-witness states that the affair al Conradis Ferry, a week ago, was as follows: A party of Union scouts crossed the river and took swerfal privoners, aims, and four horses. Da reaching the river on their return, they were attacked and compelled to let the prisoners go. The next day a battery appeared opposite our antrenchments and commenced shelling us. Wa having no artillery there at the time, our men responded with muskets and rides. Da the arrival of our battery the rebels seen heat a retreat.

Three days subsequently to the above a larga cump of secessionizes was discovered to be in range of our rided battains near Leedurg. An active boundar ment roon caused the rebels to leeve their quarters and go a mile from the river. Our artilleris seay they threw shells from their rided cannon over and beyond the town of Leesburg.

McCollough left Springfeld more than a week ince, taking some right or ten regiments of Arkaneas, Tennesses, Lowisiana, and Texes troops—the best fighting stock in the whole army. At last advices he had reached from Springs, in Lawrence county, and was merching towards Arkanea, Such of the wounded as belong to the Confederate forces proper, and are able to be moved, are being conveyed South, which would indicate that McCollough does not intend an early return springsteid.
